

April 29, 2010

Mike Cosgrove from Crown Ministries was back and to continue our financial series. This month Mike talked about current trends he said that our national credit card debt has come up 1.2% which means people are back to using their credit cards for purchases. He also talked about avoiding advertisements because advertising leads people to think that they need something and spend money that they should not spend. Mike also talked about being careful with companies offering credit card debt relief. These companies are making money off of those who do not have it. He also talked about bankruptcy. Mike said that bankruptcy is okay when it is medical related. And in New Mexico, once you file bankruptcy, you cannot pay anyone that you owed. He said that moving forward, to use for the Kingdom of God. Call Mike at 314.3470.
