

**July 22, 2010**

**In early October 2007, the lives of Ruth and Dale Weaver spun into chaos at hyper speed. They were told that they would need to move to Arizona immediately so Dale could begin the process of a heart transplant. Dale was only 48 years old. They moved into the Arizona Transplant House and found love and support from their new extended family. Today Dale is a healthy man, grateful for his new lease on life. Ruth would like to help anyone facing the same situation. You can reach Ruth at [ruthaweaver@msn.com](mailto:ruthaweaver@msn.com). For information, go to [www.otapnm.org](http://www.otapnm.org)**
